

Module 8 - Assignment

Problem Statement:

You work as a Power BI Developer in a leading software company. As a BI professional, you are asked to explore ways in which AdventureWorks can empower business and build a report based on sales.

You have been asked to:

- a) In Power BI Desktop, connect to [Lans Transport Corp](#) Excel workbook
 - b) Create a card visual for Total Miles, Revenue, and Shipping Cost
 - c) Revenue and Total Miles by the origin state
 - d) Create a map visual of Revenue by the origin city
 - e) Create a column chart of Trip ID
 - f) Create a funnel chart of Trip ID by the destination state (use different colors to represent each)
 - g) Save the report
-
