Module 1: AI and Deep Learning Intro Assignment

Problem Statement:

In order to have a good understanding of topics coming forward in your class, your trainer wants you to have your execution environment ready.

Requirements:

You'll need to have a system of minimum 8 GB RAM

Tasks to be Done:

A. Install Anaconda on your system with Python version 3.6 or +
   a. Create a Tensor Flow environment in your anaconda
   b. Download Tensor Flow in your Tensor Flow environment
B. Download below mentioned packages in both the envs
   a. Pandas
   b. Numpy
   c. SciKit-learn
   d. Scipy
   e. Matplotlib
C. Install following packages only in your Tensor Flow environment
   a. Keras
   b. TFLearn
